A. A graph showing the N-N distance in different molecular structures: N₂, CuCr-V₀, CuCr-V₀-Strain, N₂H₂, N₂H₄.

B. Diagram illustrating strain induced by V₀ and Jahn-Teller effect.

C. Diagram showing molecular structures with labels for W, O, W (defective), and O of O₂.

D. Diagram representing the arrangement of atoms with specific colors for W, O, and defective W and O of O₂.
